

## **CAN DRY**

Bird River Resources Inc. is a distributor of the Can Dry line of all purpose absorbents. It is safe to handle and use. It is not WHMIS controlled and contains less than 1% free crystalline silica and is environmentally safe. Can Dry is not affected by temperature changes and will not rot or mold. Can Dry is mined, milled and packaged in Canada.

Can Dry Premium and Can Dry Supreme can safely and quickly absorb industrial liquids such as;

### **Alcohols**

Methyl alcohol  
Ethyl alcohol  
Isopropyl alcohol

### **Oils/Fuels**

Mineral Oil  
Gasoline/Diesel  
Hydraulic Fluid & Motor Oil

### **Coolants**

Anti-freeze  
Transmission coolants

### **Solvents**

Methyl's/Ethers  
Ketone

### **Paints**

Mineral Oil  
Latex Paints  
Lacquers, Shellacs & Thinners

**CAN DRY PREMIUM** – All Purpose Absorbent creates an economically priced industrial absorbent product that absorbs its own weight in liquid. Available in 16.3-kg (36-lbs) plastic bag (W020)

**CAN DRY SUPREME** – All Purpose Absorbent creates a harder product that does not break down like other absorbent products and absorbs up to 140% of its own weight in liquid. Available in 16.3-kg (36-lbs) plastic bag (W154)

Can Dry "granular absorbent" product line is environmentally safe and no special equipment is required for disposal or collection.

## **Other Industrial Minerals that are available in bulk**

Bentonite  
Leonardite  
Diatomaceous Earth
